

Introduction to Rheology & Viscoelasticity

May 16-18

SEMINAR

9a.m.-12p.m.

GT337

WORKSHOP

1-3p.m.

ECIII 106/110

Supported by NIH grant #R25GM061222

Dr. Reza Foudazi, NMSU Assistant Professor of Chemical & Materials Engineering will provide an introduction to rheology and the theory of viscoelasticity through both a seminar and a hands-on laboratory workshop. Rheometry, the technique for characterization of fluids, will be discussed. In the hands-on workshop, participants will receive hands-on training in data acquisition with NMSU's new Discovery Series HR-2 rheometer (NSF 1438584).
